حقوق و ساقه کاری  
میزان ساقه کاری: ۱ سال

## دورههای آموزشی

سازه های قیچی سان  
طول دوره: ۳ روز  
اکادمی معماری  
طول دوره: ۶ ماه

## زبانهای خارجی

انگلیس | بالاتر از متوسط

## ذرم افزارها

Post Production | متواتر  
Sketchup | پیشرفته | Revit | پیشرفته Lumion  
Adobe Illustrator | متواتر Microsoft Powerpoint | متواتر Microsoft Word  
AutoCad | متواتر After Effects | متواتر Adobe Photoshop  
Grasshopper | متواتر

## مهارت‌های تکمیلی

طراحی لوگو موشن  
معماری داخلی  
فاز صفر

## پژوهه‌ها و تجربیات آکادمیک

برج اداری تجاری ونک ۲. موزه آب نیاوران ۳. هتل کلیمانه ای پیتک ۴. ویلا مهر ۵. خانه پوریزاده ۶. باویون بارامتیک  
۷. برج کشاورزی توین

## درباره من

دانشجوی ارشد معماری بیونیک در دانشگاه معماري و هنرپارس دارای یک سال سابقه کار در شرکت ماهед امکان دارای روحیه تیمی و علاوه مدن به طراحی در حوزه طراحی فاز یک و فاز صفر و گرافیک معماري

# TV WALL

Placing a TV above a fireplace is often common, and this modern twist is simply stunning. The TV is placed above a contemporary fireplace, with a recessed design to display firewood. Designed in a bold blue colour this TV wall is eye-catching, and makes a real statement.

'An in-built electric fire offers a design led choice for the discerning homeowner, who wants to combine modern looks with the latest technology,' agrees Jon Butterworth, Director at Arada Stoves. 'Pair with a high tech flat screen TV to complete the feature wall and achieve perfect balance within the room.'

Natural materials such as wood can make an attractive backdrop that can detract away from your TV. A wooden feature wall adds character and brings much warmth to the room. This decorative wood design is created from eco-friendly wood panels that are designed for internal wall coverings, making the ideal feature wall.

'Large TVs are desirable but consider the TV size in relation to the area of the feature wall. You want things to be in proportion,' advises Gary Walmsley, Managing Director at Designer Walls. 'Always consider your cables, often modern TVs only require power as they work on Wi-Fi – a recessed box behind the TV is very helpful when tidying up cables. If there are more cables such as HDMI etc., then a trucking in the wall is recommended.'

# DINING ROOM

While the dining table might be the focus of the room, make sure your other furniture is in line with your modern look too. ‘We always like to squeeze a sideboard into a dining room when space permits,’ says Duggan. ‘It’s a great spot to store serveware, a secondary dinner service, or special glassware, but it can also be the perfect place for low level lamps, flowers and candles.’

A palette of primary colors is an easy way to add a modern element to a dining room. Hockney’s cheerful confidence with color is honoured in this vibrant dining space by using robust primary shades on the walls, floor and furniture. The look is counterbalanced by painterly brushstrokes on delicate ceramics.

Celebrate the exuberant charm of murals with a statement wallcovering. Decorate with fantastical scenes and stylised inky imagery and fine architectural drawings. An enchanting secret garden scene flourishes around all four walls, creating an intimate space for entertaining.

Simple curtains and furniture in contemporary shapes act as a foil to the whimsical feel, while the framed prints continue the theme as companions to the birds fluttering across the mural.

# LIVING ROOM

Cottage living rooms often feature vintage-inspired shelving units that serve both functional and decorative purposes. Look for open bookcases or display cabinets with distressed finishes that showcase your favorite books, family heirlooms, or decorative items.

Consider mixing different types of shelving units to create visual interest. For example, you can combine a ladder-style bookcase with a wall-mounted shelf to maximize storage space and add a unique touch to your cottage decor.
